

Joe Plant

Aspiring Web Developer

Function-led web designer with a focus on aligning business goals with thoughtful, user-centred design. I blend functionality and branding to drive key actions, whilst building clear, consistent recognition for products and services. With hands-on experience in Shopify theme development and full-stack tools like Next.js and Sanity, I create digital experiences that are as purposeful as they are polished.

Projects

Custom Shopify Theme – E-commerce Brand

Technologies: Shopify (Liquid), HTML, CSS, JavaScript

- Designed and built a full custom Shopify theme for a small bag & luggage brand
- Replaced third-party apps with custom-built Liquid components, reducing subscription costs
- Improved performance and UX with customized product pages and optimized layouts

Shopify Store Enhancements – Self-Run Business

Technologies: Shopify, Liquid, HTML, CSS

- Customized Shopify storefronts to increase average order value and conversions
- Developed custom Liquid snippets to add bespoke features without third-party dependencies
- Applied CRO best practices to improve UX and sales performance

Portfolio Site for Graphic Designer (In Progress)

Technologies: Next.js, Sanity CMS

- Building a fast, visually dynamic portfolio site for a graphic designer
- Completed official Next.js dashboard course to upskill in React-based development
- Integrating headless CMS (Sanity) for scalable and client-editable content

Education & Certifications

CS50: Introduction to Computer Science – HarvardX

Completed Jan 2023
